PROJECTS

Project 1

Easy Khata

- Developed a sophisticated khata management solution to streamline customer loan and repayment management. Key features include multi-user accounts, admin panels, loan recording, repayment tracking, and detailed reporting. Utilized HTML, CSS, Bootstrap, JavaScript, and AJAX for the frontend, with PHP and MySQL on the backend. Ensured a user-friendly, secure, and reliable system for businesses involved in lending and credit management.

Project 2

Easy Currency Converter

- "Currency Converter App" simplifies currency conversions by leveraging up-to-date exchange rates. Users can effortlessly switch between currencies like PKR, USD, EUR, JPY, and more. With its user-friendly interface, navigation is intuitive. The app features two screens: one displaying available currency pairs and the other facilitating conversions. Developed using Android Studio and Java, it utilizes Android SDK and Constraint Layout for optimal performance across devices. Key UI components include Spinners, EditText, TextViews, and Buttons.

MY LIFE PHILOSOPHY

"Something smart or heartfelt, preferably in one sentence."

STRENGTHS

Hard-working

Eye for detail

Motivator & Leader
